

2019 Environmental Stewardship Award

Tonight I have a pleasant duty to take care of, the annual presentation of the Lower Makefield Twp. Environmental Stewardship Award.

This award has been given on an annual basis for over 10 years to a group or to an individual who has made a significant environmental contribution to our town.

So, this year we are pleased to present the award, along with a \$500 stipend, to the Environmental Science Club at Pennsbury High School.

This enterprising group of students, through various fund raising efforts ,have purchased refillable water bottle stations that have been placed in strategic locations in the High School.

This has resulted in a significant decrease in the use of single use plastic bottles that are one of the major contaminants in our environment.

We are very proud of these young adults and along with this award we wish them good luck and smooth sailing in all their future endeavors.
