RE: CAPRA Standard 5.5.1, Supplemental/Emergency Appropriations Procedures

Lower Makefield Township maintains a comprehensive Emergency Management and Operations Plan. This plan is reviewed and amended on an on-going basis to maintain the most effective means of addressing emergencies.

Specifically, Emergency Management Plans include provisions which relate to the availability of critical resources and the means to procure such resources in an emergency. The Emergency Management Plan recognizes the need for collaboration between both governmental and private entities during an emergency as it relates to securing needed supplies, equipment, and other resources during such an event.

Additionally, the Emergency Management Plans include specific listings of available resources, both governmental and privately held, and the procedures by which to summon or obtain same. The Emergency Management Plan also includes associated requisition forms and documents to assist in this process.
