

Timestamp	How challenging did you find the course to be?	Did you participate in the 1M, 5K, or 10K?	Was there enough water stations throughout the course?	Did you find it easy to navigate the course?	Did you think the water stations were placed in strategic spots throughout the course?	What is something you would change about the course or day of the event?

Any other comments?

A much appreciated change from the usual road or park courses.

Thank you for hosting this event. It was a great run, on a beautiful course, in fantastic weather!

Great course would run again. Another water station in the 10k since it was a warm day. But thanks for having this event! It was my first 10k and I'm proud I could do it in my hometown

Allow the drink coupon valid for craft beers not just a very limited selection

How can the community get more involved in folds of honor? Its a great cause and many would like to assist in fund raising if possible.

Could have had much better participation- it was a perfect fall evening, the club looked spectacular, event ran smoothly overall.

Only wish you would advertise this event more to get a bigger turn out.

I thought event was handled very well overall. Maybe can alternate each year of having the 5K on the easier front 9 and switch to more challenging back 9 to keep it interesting from year to year
