Report Prepared By

Name: Lynn Todd Position: Operations Manager

Near Miss Incident MV 1/24/22

Incident:

I fielded a telephone call from a motorist who wanted to report an incident involving a township truck.

The motorist stated that earlier this morning (1/24/2022), he was entering the traffic circle at Schuyler and Edgewood Road. He stated that he entered the circle and was navigating same when he observed a township truck, traveling east on Edgewood Road, enter the traffic circle without yielding. This action reportedly caused the motorist to take evasive action, driving up into the center of the circle. The motorist said that he was then behind the truck and observed it enter the township complex just before the traffic circle at Mill Road. The motorist said that the truck was clearly a municipal vehicle, pick-up style with utility boxes. He claimed that the truck appeared to be speeding on Edgewood Road and failed to yield when entering the traffic circle at Schuyler. He could not provide any additional information about the truck.

In speaking with the motorist, he seemed satisfied that the matter would be brought to the attention of the appropriate department and did not request any additional follow-up contact/call back regarding his report.

Thanks,

Brian

Brian Omlor
Detective Sergeant
Lower Makefield Township Police Department

Follow Up:

Both the Public Works and Park & Recreation Departments notified their staff verbally to remind them to yield when going east on Edgewood into the Schuyler circle.

Can you write this up as a near miss report please. The follow up sis Greg is talking to his staff about how to navigate the circle properly. I also shared the information with bob who will pass it along to the staff. It would be good to remind the staff the next time we see them about yielding to traffic in the circle. We do not know what staff this was but we are more focused on the fact that they learn from the incident.

Monica,

I'm not sure who this was...we have one truck like that in my department so I will be following up with my guys. It could also be one of your trucks as well. Maybe you can make a general statement to your guys to remind them to yield when going east on Edgewood into the Schuyler circle.

Thanks,
Greg
