

FENCE PERMIT

Fill out a **LMT Building Permit application**. A Building Permit application can be either downloaded from our LMT.org website or picked up at LMT Township Building. Fill out Location, Cost, Explanation of Work to be done, and Section IV on Application.

You will need a **Site Plan** of the property showing all **property boundaries** & the proposed location of the Fence. Show on Site Plan all existing structures, driveways, walkways, etc. with their dimensions and setbacks.

If you do not have a site plan of the property, submit a **Request for Information Form** located at LMT.org, under forms and documents, and request to review all permits on file for your particular address. A site plan might be in a previous permit on file.

- ✓ Using a highlighter draw on Site plan where proposed fence will be located
- ✓ Provide pictures or manufacturer's specifications of fence
- ✓ Make sure to include height of the proposed fence
